JJHS AWARDS

The Joaquin Jr. High teachers and staff would like to tell all of our students congratulations on completing this school year. We sincerely wish we could have presented these awards to our students in person, but due to the COVID-19 school mandates we are unable to at this time. Our Jr. High Academic UIL participants will be recognized in an awards program in September. We would like to thank parents and community members for their support of our school and students. Our students have worked hard and deserve recognition for their accomplishments. We are so proud of each of our students and miss seeing and teaching them all!

Medals, trophies, and recognition certificates will be presented to students when students come back to school in August.

Jr. High Academic UIL participants will be recognized in an awards program in September.
