JOAQUIN HIGH SCHOOL

The Joaquin High School teachers and staff would like to tell all of our students congratulations on completing this school year. We sincerely wish we could have presented these awards to our students in person at an awards banquet, but due to the COVID-19 school mandates we are unable to at this time. We would like to thank parents and community members for their help and support of our school and students. Students have worked hard this year and deserve recognition for their accomplishments. We are so proud of each and every one, and miss seeing and teaching them!

Medals and certificates will be given to students when we return to school in August.
